Total	294

QUESTION NO: 1

The statement, "Getting information to the right people at the right time in a secure, reliable manner in order to support the operations that are core to the extended enterprise" describes the concept of_____

A. Boundaryless Information Flow

B. Interoperability

C. Portability

D. Service Oriented Architecture

E. Semantic Web

ANSWER: A

QUESTION NO: 2

Complete the sentence. In TOGAF, legacy systems and processes that are going to be used again in the future are considered _____

A. Architecture Building Blocks

B. Components

C. Patterns

D. Re-usable Building Blocks

E. Solution Building Blocks

ANSWER: D

QUESTION NO: 3

In TOGAF, what is the difference between an artifact and a deliverable?

A. An artifact contains one or more deliverables

B. Artifacts and deliverables are synonymous; there is no difference between them

C. Deliverables are prepared by the Project Manager, whereas artifacts are defined by the Architect

D. Deliverables are reusable, whereas artifacts are unique to a given architecture project

E. Deliverables are specified as contractual outputs from a project, whereas artifacts are not

ANSWER: E

QUESTION NO: 4

According to TOGAF, Which of the following best describes the classification of architectural change in the case where multiple server systems are being consolidated to a single system?

A. A bottom-up change to enhance operational capability

B. An incremental change handled via change management techniques

C. A re-architecting change that puts the whole architecture through an ADM cycle

D. A revision change of the enterprise architecture

E. A simplification change handled via change management techniques

ANSWER: E

QUESTION NO: 5

Which phase of the ADM ensures that implementation projects conform to the defined architecture?

A. Requirements Management

B. Phase D

C. Phase F

D. Phase G

E. Phase H

ANSWER: D

QUESTION NO: 6

Complete the sentence. In TOGAF, architecture viewpoints represent _____

A. observations of the CIO/CTO

B. opinions of the sponsors

C. observations of the architect staff

D. concerns of stakeholders

E. stakeholder requirements

ANSWER: D

QUESTION NO: 7

What is an objective of the ADM Preliminary Phase?

A. To create the initial version of the Architecture Roadmap

B. To develop a vision of the business value to be delivered by the proposed enterprise architecture

C. To select and implement tools to support the Architecture Capability

D. To obtain approval for the Statement of Architecture Work

E. To document the baseline architecture

ANSWER: C

QUESTION NO: 9

Complete the sentence. During the implementation of an architecture, if the original Architecture Definition and requirements are not suitable, a ____ may be submitted to initiate further architecture work.

A. Capability Assessment

B. Change Request

C. Requirements Impact Analysis

D. Statement of Architecture Work

ANSWER: B

QUESTION NO: 10

Which of the following describes the practice by which the enterprise architecture is managed and controlled at an enterprise-wide level?

A. Architecture governance

B. Corporate governance

C. IT governance

D. Technology governance

E. Portfolio governance

ANSWER: A

QUESTION NO: 11

Which of the following best describes the purpose of a business scenario?

A. To define and plan an enterprise architecture transformation based on Capability-Based Planning

B. To develop a set of general rules and guidelines for the architecture being developed

C. To develop a set of security guidelines for the architecture being developed

D. To help identify and understand the business requirements that an architecture must address

E. To identify and mitigate the risks when implementing an architecture project

ANSWER: D

QUESTION NO: 12

Which one of the following best describes the next step in an Architecture Compliance Review once the scope of the review has been determined?

A. Interview the project principals to obtain background information

B. Prepare the Architecture Compliance Review report

C. Schedule the Architecture Review meeting

D. Send the assessment report to the Architecture Review co-ordinator

E. Tailor the checklists to address business requirements

ANSWER: E

QUESTION NO: 13

According to the TOGAF standard, why is Business Architecture recommended to be first architecture developed?

A. It contains a high level description of the business strategy for the organization

B. It is the key document describing how the new architecture capability will meet the business goals

C. It provides prerequisite knowledge for undertaking work in the other architecture domains

D. It mobilizes operations to support the ongoing business architecture development

E. It includes preparation activities such as customization of the method

ANSWER: C

QUESTION NO: 14

TOGAF uses a version numbering convention to illustrate the evolution of the Baseline and Target Architecture Definitions. Which version number in this convention indicates a high-level outline of the architecture?

A. Version 1.0

B. Version 0.9

C. Version 0.5

D. Version 1.5

E. Version 0.1

ANSWER: E

QUESTION NO: 15

Complete the sentence. The TOGAF Architecture Governance Framework includes _____.

A. a list of responsibilities for running an Architecture Board

B. a model for governance including process, content and context

C. guidance for establishing an Architecture Capability using the ADM

D. the Architecture Compliance review process and checklists

ANSWER: B
