|-------------------|------------------|
| Topic 1, Volume A | 47 |
| Topic 2, Volume B | 50 |
| Topic 3, Volume C | 50 |
| Topic 4, Volume D | 49 |
| Topic 5, Volume E | 50 |
| Topic 6, Volume F | 43 |
| Total | 289 |

QUESTION NO: 1

When piping the output of find to the xargs command, what option to find is useful if the filenames have spaces in them?

- A. -rep-space
- B. -print0
- C. -nospace
- D. -ignore-space

ANSWER: B**QUESTION NO: 2**

George is planning a partition scheme for a new Linux installation. Which THREE directories should he consider for separate partitions? (Select three)

- A. /etc
- B. /home
- C. /var
- D. /lib
- E. /tmp

ANSWER: B C E**QUESTION NO: 3**

When should grep -F or the fgrep command be used to search the content of text files?

- A. When files need to be searched that contain non-ASCII text.
- B. When only the presence of the search pattern needs to be reported and not every line that matches the search.

- C. When the text being searched for does not contain any regular expression patterns.
- D. When the text files will be searched multiple times. Subsequent calls to fgrep will run faster.

ANSWER: C

QUESTION NO: 4

- A. esc ZZ
- B. ctrl :w!
- C. esc zz
- D. esc :wq!
- E. ctrl XX

ANSWER: A D

QUESTION NO: 8

What program is needed to establish a PPP link to another computer?

- A. pppd
- B. wvdial
- C. papd
- D. kppp

ANSWER: A**Explanation:**

wvdial - PPP dialer with built-in intelligence. wvdial is an intelligent PPP dialer, which means that it dials a modem and starts PPP in order to connect to the Internet. It is something like the chat(8) program, except that it uses heuristics to guess how to dial and log into your server rather than forcing you to write a login script.

QUESTION NO: 9

Which of the following shell redirections will write standard output and standard error output to a file named filename?

- A. 2>&1 >filename
- B. >filename 2>&1
- C. 1>&2>filename
- D. >>filename
- E. 1&2>filename

ANSWER: B**QUESTION NO: 10**
