**QUESTION NO: 1**

Which three of these service components are included in the optimize phase? (choose three.)

- A. change management
- B. security administration
- C. technology assessment
- D. operations assessment
- E. operations readiness assessment
- F. security assessment

**ANSWER: C D F**

**QUESTION NO: 2**

Which two of these activities comprise the problem management service component in the operate phase? (choose two.)

- A. send a replacement module
- B. schedule a maintenance window
- C. manage the problem
- D. identify the problem
- E. confirm roles and responsibilities

**ANSWER: C D**

**QUESTION NO: 3**

Which two service components are performed during the implement phase? (Choose two)

- A. site readiness specification
- B. staging
- C. phased implementation
- D. security readiness assessment

E. configuration management

**ANSWER: B C**

**QUESTION NO: 4**

Which activity is a part of the operations assessment service component in the optimize phase?

- A. design routing and switching infrastructure
- B. confirm project and milestone dates
- C. conduct gap analysis
- D. execute test cases

**ANSWER: C**

**QUESTION NO: 5**

In which component would you identify and solve recurring incidents by analyzing incident trends to identify patterns and systemic conditions?

- A. problem management
- B. operation assessment
- C. system acceptance test
- D. operations design

**ANSWER: A**

**QUESTION NO: 6**

Which of these activities is part of the security administration service component in the operate phase?

- A. develop an automated password change policy
- B. use secure messaging
- C. security policy administration
- D. perform security assessment

**ANSWER: C**

**QUESTION NO: 7**

In which service component would you standardize methods and procedures for authorizing, documenting, and performing changes to the network?

- A. operations setup
- B. configuration management
- C. change management
- D. security administration

**ANSWER: C**

**QUESTION NO: 8**

In which phase is a system acceptance test plan developed and documented?

- A. design
- B. prepare
- C. operate
- D. implement

**ANSWER: A**

**QUESTION NO: 9**

Which two of these activities are part of the implementation plan development service component in the design phase?  
(Choose two)

- A. develop an implementation schedule
- B. discuss project roles and responsibilities
- C. confirm project and milestone dates
- D. create a detailed staff training matrix
- E. create a site-specific network implementation plan

**ANSWER: A E**

**QUESTION NO: 10**

Which two of these activities are part of the phased implementation service component in the implement phase? (choose two)

- A. develop a staff training program plan
- B. conduct a kickoff meeting
- C. prepare the site for the system implementation
- D. install, configure, integrate and test infrastructure

**ANSWER: C D**
