QUESTION NO: 1

Which two methods can be used to create a feature class in ArcMap? (Choose two.)

- A. ArcToolbox > Data Management Tools > Feature Class > Create Feature Class
- B. Catalog window > Right-click a geodatabase > New > Feature Class
- C. Catalog window > Right-click a folder > New > Feature Class
- D. File > Add Data > Add Data > Shapefile > New Feature Class
- E. Start an Edit session > Create Features window > Click Feature Template > Create Features

ANSWER: B D**Explanation:**

Reference: <http://desktop.arcgis.com/en/arcmap/10.3/manage-data/databases/create-a-featureclass-in-a-database-in-arcgis.htm>

QUESTION NO: 2

An ArcGIS user is creating a map of a village. The user needs the map to clearly display features such as streets, trees, and businesses in the village.

Which scale should the user choose for this map?

- A. Large scale to cover a small area of the ground with a high level of detail
- B. Small scale to cover a small area of the ground with a high level of detail
- C. Large scale to cover a large area of the ground with a low level of detail
- D. Small scale to cover a large area of the ground with a low level of detail

ANSWER: B**QUESTION NO: 3**

A researcher is opening a new, blank ArcGIS Pro Project. Upon creating the ArcGIS Pro Project, a map is NOT visible.

What should the researcher do to begin the project?

- A. Insert a new basemap from the Insert tab
- B. Make a folder connection to the file geodatabase
- C. Insert a new map from the Insert tab
- D. Insert a new layout from the Insert tab

ANSWER: B

QUESTION NO: 4

Which two ways can values be entered into the scale box to set map scale in ArcGIS Pro?

(Choose two.)

- A. 1:100000
- B. 1 mile
- C. 1 cm = 100m
- D. One to one hundred
- E. 100000:1

ANSWER: A C

Explanation:

Reference: <https://pro.arcgis.com/en/pro-app/help/mapping/navigation/map-scales-and-scaleproperties.htm>

QUESTION NO: 5

Which data format can be added as an item to ArcGIS Online?

- A. File geodatabase in a folder
- B. Shapefile in a zipped folder
- C. XML workspace document
- D. Geometric network

ANSWER: B

Explanation:

Reference: <https://doc.arcgis.com/en/arcgis-online/manage-data/add-items.htm>

QUESTION NO: 6

Which spatial selection method allows a user to select polygons that share at least half of their area within another, single, large polygon?

- A. Intersect the source layer feature
- B. Touch the boundary of the source layer feature
- C. Are identical to the source layer feature
- D. Have a polygon centroid in the source layer feature

ANSWER: C**Explanation:**

Reference: <http://desktop.arcgis.com/en/arcmap/10.3/map/working-with-layers/using-select-bylocation.htm>

QUESTION NO: 7

To leverage additional labeling properties, users can switch between Standard and Maplex labeling engines.

Where is this change applied in ArcMap?

- A. Labeling tab in the Layer Properties
- B. Database Properties
- C. Map Document Properties
- D. Labeling toolbar

ANSWER: D**Explanation:**

Reference: <http://desktop.arcgis.com/en/arcmap/10.3/map/working-with-text/enabling-maplex-forarcgis-and-adding-the-labeling-toolbar.htm>
