QUESTION NO: 1

An IBM Datacap Application Developer logs in to Datacap Studio in the UAT environment and does not see an application called Expense in the list. Expense was recently moved from the Development environment to UAT.

Which of the following options provides a possible explanation for why the Application Developer can't see the Expense application in UAT?

- A. The UAT datacap.xml file does not list the Expense application.
- B. Datacap Studio is pointing to the Development environment copy of application.xml.
- C. The Datacap Web Server is down so Datacap Studio cannot connect to the Datacap Server.
- D. The Rulerunner server misread the datacap.xml file and could not display the Expense application for Datacap Studio.

ANSWER: B**QUESTION NO: 2**
