QUESTION NO: 1

What physical resource is divided up by compute resource virtualization to create virtual resources?

- A. SAAS controller
- B. RAM
- C. ROM
- D. PCI bus

ANSWER: B**QUESTION NO: 2 - (DRAG DROP)**

DRAG DROP

A corporation has established a simplified, five year Digital Transformation plan for all their businesses. They have chosen Dell EMC to help with their Digital Transformation goals.

Match each solution to its IT Transformation benefit.

Select and Place:

| <u>Solution:</u> | <u>Benefit:</u> |
|--------------------------------|--|
| Cloud Native Architecture | Pre-integrated, tested, and certified at Dell EMC, enabling IT to focus on workload migration rather than assembling hardware and software |
| Hybrid Cloud Platform | Pre-configured, software-defined storage solution that reduces time to deploy infrastructure resources. |
| Converged Infrastructure | Provides multiple availability zones to deploy applications across multiple clouds |
| Hyper-converged Infrastructure | Provides an application that can be deployed across multiple clouds |

ANSWER:

| <u>Solution:</u> | <u>Benefit:</u> |
|--------------------------------|--------------------------------|
| Cloud Native Architecture | Converged Infrastructure |
| Hybrid Cloud Platform | Hyper-converged Infrastructure |
| Converged Infrastructure | Hybrid Cloud Platform |
| Hyper-converged Infrastructure | Cloud Native Architecture |

Explanation:

QUESTION NO: 3

Which Dell EMC Converged Infrastructure system is designed for the mid-market segment?

- A. VxRail
- B. VxBlock 300
- C. VxBlock 700
- D. VxBlock 500

ANSWER: A

Explanation:

The new VxRail Appliances 4.5 deliver a number of new features designed for enterprise-class customers with optional integration with Dell EMC PowerEdge 14th generation servers. Historically, VxRail had been focused on mid-market customers, but as the use cases for HCI have expanded to include applications such as CRM, databases and others that are used to run businesses, the appeal has expanded to enterprise-class customers.

QUESTION NO: 7

What is a goal of IT transformation?

- A. Managing security risks involved with mobile data.

- B. Empowering the workforce to take advantage of opportunities that improve collaboration and productivity
- C. Managing Big Data projects to provide analytics that help drive organizational growth
- D. Spending more time on strategic value-adding initiatives

ANSWER: B

QUESTION NO: 8

What is a benefit of using server virtualization?

- A. Reduced utilization of physical servers
- B. Reduced storage costs
- C. Reduced application development effort
- D. Reduced power and cooling requirements

ANSWER: A

QUESTION NO: 9

What is the minimum number of pairs of Fabric Interconnects in a VxBlock System?

- A. 1
- B. 2
- C. 3
- D. 4

ANSWER: A

Explanation:
