- E. Report formula fields are nor supported in Joined reports

ANSWER: B C D

QUESTION NO: 6

Universal Containers has a requirement that an Opportunity should have a field showing the value of its associated account's billing state. This value should not change after the Opportunity has been created. What is the recommended solution to configure this automation behavior?

- A. Formula Field
- B. Workflow
- C. Roll-up-summary field
- D. Apex

ANSWER: B

QUESTION NO: 7

A customer service representative at a call center would like to be able to collect information from customers using a series of question prompts. What could be used to accomplish this?

- A. Lightning process builder
- B. Workflow Rules
- C. Lightning Connect
- D. Visual workflow

ANSWER: D

QUESTION NO: 8

Universal container manages internal projects by department using a custom object called projects. Only employees in the project's respective department should have view access to all of the department's project records. If an employee changes job roles and moves to another department, the employee should no longer have access to the projects within their former department. How can these requirements be met, assuming the organization-wide default for projects is set to private? Choose 2 answers

- A. Create a criteria based sharing rule using the projects department that grants access to users by permission set.
- B. Create a criteria based sharing rule using the projects department that grants access to users by roles.
- C. Create a criteria based sharing rule using the projects department that grants access to users by public groups.
- D. Create a criteria based sharing rule using the projects department that grants access to users by profiles

ANSWER: B C

QUESTION NO: 9

A custom field on an account is used to track finance information about a customer. Only members of the Finance Team have access to this field. However, the business wants to allow one customer service agent, who is assigned the customer service profile, read-only access to this field for special circumstances. What is the recommended solution to grant the customer service agent access to the field?

- A.** Create a permission set that allows read-only access to the field via Field Level Security and assign it to the agent.
- B.** Create a new profile to allow for read-only access to the field via Field Level Security and assign it to the agent
- C.** Update the Customer Service Profile already assigned to the agent to allow for read-only access to the field via Field Level Security
- D.** Update the custom field's Field Level Security in setup to allow the agent read-only access to the field.

ANSWER: A

QUESTION NO: 10

What metadata changes can be made directly in a production environment without deploying from sandbox?

Choose 2 answers

- A.** Apex Triggers
- B.** Visualforce Pages
- C.** Validation Rules
- D.** ApexClasses

ANSWER: B C
