QUESTION NO: 1

In Huawei's all-optical video backhaul network, which devices support the POE function

- A. P622E
- B. T672E
- C. EG8084P
- D. EG8084P-300G1

ANSWER: C D

QUESTION NO: 2

What are the application cases of XPON in our radio and television industry?

- A. Guizhou Radio and Television
- B. Hubei Radio and Television
- C. Shandong Radio and Television
- D. Northern United (Liaoning Radio and Television)

ANSWER: A B C D

QUESTION NO: 3

The wave number of the commonly used CWDM system is

- A. 4
- B. 8
- C. 16
- D. 32

ANSWER: B

QUESTION NO: 4

The advantages of SDH ultra-long-distance solutions used in the power industry do not include ()

- A. Absolutely leading the ultra long distance capability
- B. Unified optical amplifier and MSTP equipment network management
- C. Optical amplifier system does not require additional Network management channel
- D. Support Raman and remote pumping technology

ANSWER: A**QUESTION NO: 5**

The SDH frame structure includes: channel overhead, information payload, segment opening

- A. Channel overhead, information payload, segment opening pin
- B. Regenerative section overhead, multiplex section open
Pin, management unit pointer, letter
Interest net load
- C. Container, virtual container, reuse,
Mapping
- D. Regenerative section overhead, multiplex section open
Sales, channel expenses, management orders
Meta pointer

ANSWER: B**QUESTION NO: 6**

The power OTN backbone network is mainly used for comprehensive bearer, including data communication network, mobile communication Letter return etc.

- A. TRUE
- B. FALSE

ANSWER: B

QUESTION NO: 7

Radio and television counties and townships are a major growth opportunity for the radio and television industry

- A. TRUE
- B. FALSE

ANSWER: A**QUESTION NO: 8**

The following high-speed services mainly promote bandwidth evolution:

- A. Video business
- B. Charge business
- C. Unable to support the future
- D. 2M dedicated line business

ANSWER: A**QUESTION NO: 9**

The integration of power transmission and transformation integration transmission solutions does not include ()

- A. Industry integration, integration of industry needs, such as 2M optical interface, 2M ASON
- B. Information technology development trends, such as SDH/OTN/PKT unified design Prepare
- C. Integration of client-side interfaces Low-speed connection such as traditional PCM equipment mouth
- D. Fusion of advanced concepts and hot spots, Such as 5G and WIFI6

ANSWER: D**QUESTION NO: 10**

Comparing the PTN solutions of friends, which of the following are differentiated competitions of our enhanced MSTP Compete for advantage? Hard pipe physical isolation Support 1588V2 feature; Support dual plane; Support E1 interface Line bandwidth can be smoothly increased

- A. Physical isolation of hard pipes
- B. Support 1588V2 features;
- C. Support dual plane;
- D. Support E1 interface
- E. Line bandwidth can be smoothly upgraded

ANSWER: A C E

QUESTION NO: 11

Which of the EA and EG corporate proprietary brands is correct?

- A. Targeted development of company-specific features, Better match corporate business needs
- B. Effectively prevent operators from Chuo
- C. EA5800 has better compatibility, Compatible with EG and HG ONU equipment
- D. EG series ONU is compatible EA and MA OLT equipment

ANSWER: A B C

QUESTION NO: 12

The interfaces supported by the enhanced MSTP built-in PCM include.

- A. 6×2/4 line voice/E&M
- B. FXS/ FXO
- C. RS232
- D. V.35

ANSWER: A B C D

QUESTION NO: 13

"Higher education schools + hospitals" interconnection and self-built wave division interconnection advantages

- A. Simple expansion, flexible business configuration: hard Pipes, physical isolation, reliable business;
- B. Bandwidth resources vary with each unit/department Dynamic configuration on demand;
- C. Economic benefit: excellent cost, net Network usage time is more than 3 years, The comprehensive cost of self-built transmission is more Excellent, actual estimates are Differences must be combined with local costs Refined calculation
- D. Controllable business opening time: any Italian business access to meet the needs of hospitals Kind of business access without new lease Optical fiber can be smoothly expanded, Service online fast;

ANSWER: A B C D**QUESTION NO: 14**

Does Huawei use Huawei's self-developed business chips for MA5800 series products

- A. TRUE
- B. FALSE

ANSWER: A**QUESTION NO: 15**

Highlights of MA5800 distributed OLT products include

- A. Maximum 400G single slot bandwidth
- B. Remote fault location
- C. Support distributed video caching
- D. Rogue ONT fast detection

ANSWER: A B C
