QUESTION NO: 1

The following is a description of the BMS, what is wrong?

- A. Support Linux Windows operating system release
- B. Complete network automation configuration of bare metal through SDN control
- C. Support FC SAN/FusionStorage
- D. The same volume cannot be mounted to multiple BMS instances at the same time

ANSWER: D

QUESTION NO: 2

In the high-performance computing solution, most of the scenarios need to use the InfiniBand network. What is the characteristics of the network?

- A. High latency, low bandwidth
- B. High latency, high bandwidth
- C. Delay, low bandwidth
- D. Low latency, high bandwidth

ANSWER: D

QUESTION NO: 3

The Peng Peng 916 is the Hi1616, and the Peng Peng 920 is the Hi1620. In 19 years, the Peng Peng 9x caliber was used consistently.

- A. True
- B. False

ANSWER: A

QUESTION NO: 4

For the core trading system of the financial industry, what is the primary statement of its storage system?

- A. High performance
- B. Reliability
- C. Low latency
- D. Large capacity

ANSWER: B

QUESTION NO: 5

The taishan server can be used as a compute node in the HPC system.

- A. True
- B. False

ANSWER: A

QUESTION NO: 6

How does Huawei's Fusion virtualization solution ensure user data security?

- A. Username, password
- B. Data transmission adopts certificate authentication
- C. Volume encryption
- D. The user accesses the virtual machine, adopts HTTPS mode, and the transmission channel adopts SSL encryption.

ANSWER: A B C D

QUESTION NO: 7

Which of the following modes does the FusionCube's data copy mechanism support?

- A. Single copy
- B. 2 copy
- C. 3 copy
- D. 4 copy

ANSWER: B C

QUESTION NO: 8

Which type of database does the relational database service in HCS not support?

- A. MySQL
- B. GuassDB
- C. SQLServer
- D. PostgresQ

ANSWER: B

QUESTION NO: 9

The following statement is correct?

- A. Atlas5500 supports 16 channels of video decoding, 1 channel of video encoding, supports JPEG encoding and decoding
- B. Atlas300 single card provides 6TOPS INT8 computing power
- C. Atlas200 operating temperature is 0 degrees to +30 degrees
- D. The training card used at the bottom of Atlas8 is Atlas3300.

ANSWER: A

QUESTION NO: 10

What is the correct description about DRS?

A. The traffic load applied to the virtual machine has obvious persistent peaks and troughs, and the user needs to obtain a better performance experience.

B. By dynamically scheduling virtual machines, the resource utilization of each host is more balanced, and the computing power of each host is more fully utilized on each virtual machine.

Business systems run more efficiently

C. The scheduling algorithm is reasonable, taking into account the trend of virtual machine load changes, avoiding the virtual machine moving back and forth on the host.

D. Exceptions are not scheduled or manually scheduled for virtual machines with special requirements

ANSWER: A B C D

QUESTION NO: 11

Which sub-health status of components and components can be monitored by the FusionCube sub-health monitoring function?

A. HDD

B. SSD

C. Server

D. Network

ANSWER: A B C D

QUESTION NO: 12

The characteristics of Huawei high-density servers are:

A. High-density calculation

B. Simplified management

C. Green energy saving

ANSWER: A B C

QUESTION NO: 13

What features does the integrated dual-activity supported by the OceanStor V5 series have?

- A. An arbiter server
- B. A set of arbitration mechanisms
- C. A networking mode
- D. Free gateway, SAN and NAS integration

ANSWER: A B C D

QUESTION NO: 14

The front panel of Huawei E9000 blade server has 4 partitions, and the top partition supports mixed insertion.

- A. True
- B. False

ANSWER: B

QUESTION NO: 15

In a typical configuration of an HCS solution, is it only used for devices or software configured for hard SDN scenario delivery?

- A. CE12804
- B. F52200S
- C. USG6600
- D. AgileController

ANSWER: A D
