## Topic Break Down

Topic	No. of Questions
Topic 1, Volume A	90
Topic 2, Volume B	82
<b>Total</b>	<b>172</b>

**QUESTION NO: 1**

Consider the following HTML5 code:

```
<!-- NAVIGATIONAL SIDEBAR -->
<nav>

<br/>
<br/>SYB
<br/>Summary Report
</nav>
```

Also consider the following CSS code:

```
nav
{
float:left;
width:165px;
background:#fc3 url(navbg_04.gif) repeat-y top right;
height:662px;
}
```

This HTML5 and CSS code directs the sidebar background image to:

- A. display at the top-right of the sidebar
- B. display at a height of 129 pixels
- C. display at the left of the sidebar
- D. display horizontal

**ANSWER: A**

**QUESTION NO: 2**

A friend has called you about a possible computer problem because her computer is acting strangely. Sounds play unexpectedly, the monitor turns off suddenly, the hard-drive light flashes constantly, the computer sometimes reboots itself without warning. When you inspect your friend's system, you notice that several ports are open. Which of the following is most likely the cause of these symptoms?

- A. The computer has been infected with a polymorphic virus.
- B. The computer is experiencing a denial-of-service attack.

- C. The computer has been infected with an illicit server.
- D. The computer has been infected by a worm.

**ANSWER: C**

### QUESTION NO: 3

Emelia and Lola have created a new software application that allows messaging site subscribers to analyze the message statistics in order to more easily assess and interact with followers. They have decided to license this software according to the GNU GPL Version 3. What does this license allow them to do with their software?

- A. They can only sell this software through a not-for-profit company.
- B. They can sell this software, but only if they make the software code available on a public server.
- C. The software enters the public domain for free use and can be altered by other programmers, who must then make their changes freely available as well.
- D. The software enters the public domain for free use, but any changes made in the future can be kept secret, allowing them to profitably sell the modified software.

**ANSWER: C**

### QUESTION NO: 4

Acme Company has been receiving complaints from its suppliers saying that its extra net site does not render correctly in all their employees' browsers. The suppliers are asking that the extra net site be fixed so that everyone can access it, regardless of browser type. When examining this problem, the Acme Web Development team finds that many developers worked on the site and each used code that he or she was comfortable with. To resolve this problem, what can the Acme developers do?

- A. Edit the code so that it consistently uses uppercase letters.
- B. Edit the code in several common browsers before publishing.
- C. Edit the code so that it conforms to a single W3C HTML standard.
- D. Edit the code so that it follows a single W3C scripting language standard.

**ANSWER: C**

### QUESTION NO: 5

Web developers typically include comments in their code for which reason?

- A. To insert server-side programs, such as JavaScript
- B. To communicate performance issues to site visitors
- C. To explain the purpose of code sections to other developers
- D. To declare which version of HTML each part of the code is using

**ANSWER: C**

#### QUESTION NO: 6

You opened an e-mail attachment and it launches a virus. The virus takes control of your system and you are unable to run your anti-virus software. Which of the following is the best step for you to take next?

- A. Let the virus run its course.
- B. Call your local authorities to report an identity theft.
- C. Turn off your computer and reboot from a known, clean system disk.
- D. Plug in your backup drive to try to initiate an immediate backup of important files.

**ANSWER: C**

#### QUESTION NO: 7

You accidentally dropped your mobile phone, which was submerged in water and no longer works. Upon replacing the phone with an upgraded unit you must reconfigure many of the services. The instructions say that all you need to do is enter your e-mail address and the unit will configure the e-mail client for you. Even though you have tried this several times, it does not work. The mobile phone vendor says that because you are trying to sync your e-mail account with an enterprise mail server, you will need to configure the e-mail client manually. Which choice lists the information you will need to configure the e-mail client?

- A. Company name, e-mail address, SMTP, POP3, IMAP and DNS
- B. E-mail address, SMTP, IMAP, DNS, user name and password
- C. E-mail address, SMTP, POP3, user name and password
- D. Company name, SMTP, POP3, user name and password

**ANSWER: C**

#### QUESTION NO: 8

You just started a small business and need to create a logo. Although you are technically savvy, your artistic creativity is limited. You decide to launch a contest to seek creative ideas for your logo. Using the Internet and social networking in this manner is known as:

- A. folksonomy
- B. outsourcing
- C. crowd sourcing
- D. social engineering

**ANSWER: C**

#### QUESTION NO: 9

A friend just sent you a link to a Facebook page with information that you find very useful. You want to be able to recall the site in the future from your desktop computer, or from your mobile device while away from your desk. Which is the best approach?

- A. Memorize the URL so you can pull up the site in any browser such as Chrome, Firefox or Internet Explorer.
- B. Add the link to a cloud-based bookmark service such as Delicious or Google Bookmarks.
- C. Manually enter the Web address into any and all browsers on all of your devices.
- D. Pull up the message with the link any time you want to view the site.

**ANSWER: B**

#### QUESTION NO: 10

Which of the following statements about virtualization is true?

- A. Virtualization enables multiple physical computers to run off of a single virtualized server.
- B. In virtualization, you run multiple virtual machines, provided they all use the same operating system.
- C. In virtualization, the operating systems of the virtual machines should match the host operating system.
- D. Virtualization enables you to run multiple operating systems and applications on a single computer.

**ANSWER: D**
