QUESTION NO: 1

Which two statements about Performance Monitor are true? (Choose two.)

- A. It fails to maintain the historical data about analyzed flows traversing routers.
- B. It analyzes RTP-based audio and video flows and reports on service-affecting metrics.
- C. It does not facilitate cross-vendor application support.
- D. It is one of the features of Media Monitoring solution.
- E. It can be applied only to Cisco WebEx client applications.

ANSWER: B D

QUESTION NO: 2

What are two high availability design considerations for campus services? (Choose two.)

- A. Layer 2 or Layer 3 distribution with HSRP or GLBP is the only distribution option
- B. Deploy QoS end to end.
- C. Use daisy chaining stackable switches whenever possible.
- D. Only use HSRP and GLBP if you absolutely have to.
- E. Keep redundancy simple.

ANSWER: B E

QUESTION NO: 3

Which element of the Cisco Unified Wireless Network solution provides unified, built-in support of leading-edge applications that are integrated into products such as the Cisco Wireless Location Appliance, Cisco Wireless Control System, Cisco SDN, Cisco NAC Appliance, and Wi-Fi phones?

- A. Network unification
- B. Client devices
- C. Access points
- D. Mobility services

ANSWER: D

QUESTION NO: 4

What are two characteristics of Smart Business Architecture? (Choose two.)

- A. It has the drawback of not being advanced technology-ready.
- B. It is targeted at organizations with 200 to 1000 connected users.
- C. Its design requires midlevel IT capabilities.
- D. It consists of three primary modular yet interdependent components.
- E. Its design is sophisticated as compared to Cisco Validated Designs.

ANSWER: B D

QUESTION NO: 5

Which service helps you better prepare for the evolution into supporting a media-rich environment?

- A. Collaboration Assessment Service for Medianet
- B. Media Services Interface
- C. Media Services Proxy
- D. Autoconfiguration

ANSWER: A

QUESTION NO: 6

Which two statements about Cisco Cloud Intelligent Network are true? (Choose two.)

- A. It enables users to access their home network from their enterprise network.
- B. It provides single level service level agreements to customers.
- C. It integrates the network with the unified data center delivering a powerful user experience.
- D. It allows simplified management of the network through centralized monitoring.
- E. It is extremely vulnerable to web-based malware.

ANSWER: C D

QUESTION NO: 7

In designing a BYOD solution, which implementation is based on extending traditional guest wireless access and providing similar guest-like wireless access for employee personal devices?

- A. Advanced
- B. Basic
- C. Limited
- D. Enhanced

ANSWER: B

QUESTION NO: 8

Which advanced WAN optimization functionality is provided by Cisco WAAS?

- A. Application-specific acceleration
- B. Optimum resource usage
- C. Virtualization platform
- D. Automatic route optimization

ANSWER: A

QUESTION NO: 9

Which two statements about Cisco Cloud Web Security are true? (Choose two.)

- A. It is powered by Cisco Security Intelligence Operations, a cloud-based service.
- B. It extends web security to users on the go with the Cisco AnyConnect Secure Mobility Client.
- C. It provides unmatched cloud-based web security and control only to very small-sized organizations.
- D. It can only be integrated with Cisco switches.

ANSWER: A B

QUESTION NO: 10

Which wireless deployment mode does not use a wireless controller?

- A. FlexConnect
- B. Centralized
- C. Autonomous
- D. Converged access

ANSWER: C
