QUESTION NO: 1

In general IS-IS allows routing of both IP and OSI packets. What type of Implementation does ExtremeWare support?

- A. IP only
- B. OSI only
- C. Dual
- D. None of the above

ANSWER: A**QUESTION NO: 2**

Is it possible to configure a single physical port into different STPD's?

- A. No, this is never possible.
- B. This is possible when this port is not in 802.1D mode for any of the STPDs.
- C. This is only possible when this port is in 802.1D mode for all of the STPDs.
- D. This is possible when this port is not in 802.1D mode for more than one STPD.

ANSWER: D**QUESTION NO: 3**

Dealing with access control lists on Extreme Networks switches it is not required to manually configure the default rule.

- A. True
- B. False

ANSWER: A**QUESTION NO: 4**

ESRP-enabled switches can utilize either an IP address or an IPX net ID for their protected VLANs.

- A. TRUE
- B. FALSE

ANSWER: A

QUESTION NO: 5

Which of the following statements fit the description of PIM sparse mode? (choose three that apply)

- A. PIM sparse mode is suitable for network with minimal multicast deployment.
- B. PIM sparse mode builds shared trees based on a common Rendez-Vous Point
- C. In PIM sparse mode the RPF check depends on the tree type
- D. An explicit join is not required in PIM sparse mode.

ANSWER: A B C D

QUESTION NO: 6

In SLB the forwarding mode is the method a switch uses to forward traffic to the virtual servers. On the Summit 7i switch four forwarding modes are supported, select the two forwarding modes that are hardware based.

- A. Transparent mode
- B. Translation mode
- C. Port Translation mode
- D. GoGo mode

ANSWER: A B C D

QUESTION NO: 7 - (SIMULATION)

_____ is a QoS feature that detects if switch traffic is filling up hardware-forwarding queue and performs random packet discards to resolve the situation.

ANSWER: Random Early Discard

QUESTION NO: 8

The following modes of operation are supported with the Network login feature. (choose all that apply)

- A. Secure mode
- B. Campus mode
- C. Quick Mode
- D. ISP mode

ANSWER: A B C D**QUESTION NO: 9**
