QUESTION NO: 1

When taking a selfie, what kind of transformation does the picture displayed on the front lens of the mobile phone need to pass before it can be a real scene image.

- A. Direct mirror
- B. Horizontal mirroring
- C. Spin
- D. Pan

ANSWER: B**QUESTION NO: 2**

Which of the following are hidden units.

- A. maxout unit
- B. Rectifier linear unit
- C. Logistic sigmoid and hyperbolic tangent function
- D. Borel unit

ANSWER: A B C**QUESTION NO: 3**

What are the commonly used image coordinate transformations?

- A. Pan
- B. Zoom
- C. Mirror
- D. Rotate

ANSWER: A B C D

QUESTION NO: 4

Phonetics is a branch of the language coast and is a subject that studies human language.

- A. TRUE
- B. FALSE

ANSWER: A

QUESTION NO: 5

(Judgment) The original value of the recording pixel is S, The pixel value after the change is D. The mapping function of gray scale change is $d=ks$. When $k>1$, gray scale stretching of the dark part of the image can be achieved.

- A. TRUE
- B. FALSE

ANSWER: B

QUESTION NO: 6

Which AI scenarios are Huawei Ascend series chips for?

- A. Private cloud
- B. Edge computing
- C. Consumer terminal
- D. IOT industry terminal
- E. Public cloud

ANSWER: A B C D

QUESTION NO: 7

What are the speech synthesis methods? (Multiple Choice)

- A. Formant synthesizer
- B. Series formant synthesizer
- C. Parallel formant synthesizer
- D. PSOLA method

ANSWER: A B C D

QUESTION NO: 8

The image target detection algorithm needs to be completed? (Multiple choice)

- A. Calculation of target position
- B. Judgment of target category
- C. Calculation of confidence
- D. Calculation of target edge

ANSWER: A B C D

QUESTION NO: 9

What is incorrect about the following analysis?

- A. Rule-based word segmentation is simple and efficient, but dictionary maintenance is difficult
- B. In practical engineering applications, word segmentation generally uses only one word segmentation method
- C. Chinese is different from English natural word segmentation. Chinese word segmentation is a basic step in text processing. The performance of word segmentation directly affects the performance of other modules such as part of speech, syntax, etc.
- D. The purpose of statistical word segmentation is to calculate the probability of the word segmentation result and obtain the word segmentation method with the highest probability

ANSWER: B

QUESTION NO: 10

The accuracy of the target detection position can be evaluated by the IOD value. The iout calculation method is to find the ratio of the union and intersection of the true annotations of the detection results.

- A. TRUE
- B. FALSE

ANSWER: B
