QUESTION NO: 1 - (DRAG DROP)

DRAG DROP

You have a Microsoft 365 subscription.

You need to modify the anti-spam settings to meet the following requirements:

- Quarantine spam for 30 days.
- Notify administrators if users are blocked for sending spam.
- Every three days, provide users with a report that details which email messages were identified as spam.

Which spam filter policy should you modify to meet each requirement? To answer, drag the appropriate policies to the correct requirements. Each policy may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Policies	Answer Area
The connection filter policy	Quarantine spam for 30 days: <input type="text"/>
The default spam filter policy	Notify administrators if users are blocked for sending spam: <input type="text"/>
The outbound spam filter policy	Every three days, provide users with a report that details which messages were identified as spam: <input type="text"/>
The spoof intelligence policy	

ANSWER:

Policies	Answer Area
The connection filter policy	Quarantine spam for 30 days: The default spam filter policy
The default spam filter policy	Notify administrators if users are blocked for sending spam: The outbound spam filter policy
The outbound spam filter policy	Every three days, provide users with a report that details which messages were identified as spam: The default spam filter policy
The spoof intelligence policy	

QUESTION NO: 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Server 2019 organization.

You discover that users rarely delete items from their Sent Items folder and their Deleted Items folder.

You need to recommend a solution to automatically reduce the size on the primary mailbox of each user.

Solution: You recommend configuring a retention policy that contains two default policy tags.

Does this meet the goal?

A. Yes

B. No

ANSWER: B

QUESTION NO: 3 - (SIMULATION)

SIMULATION

Use the following login credentials as needed:

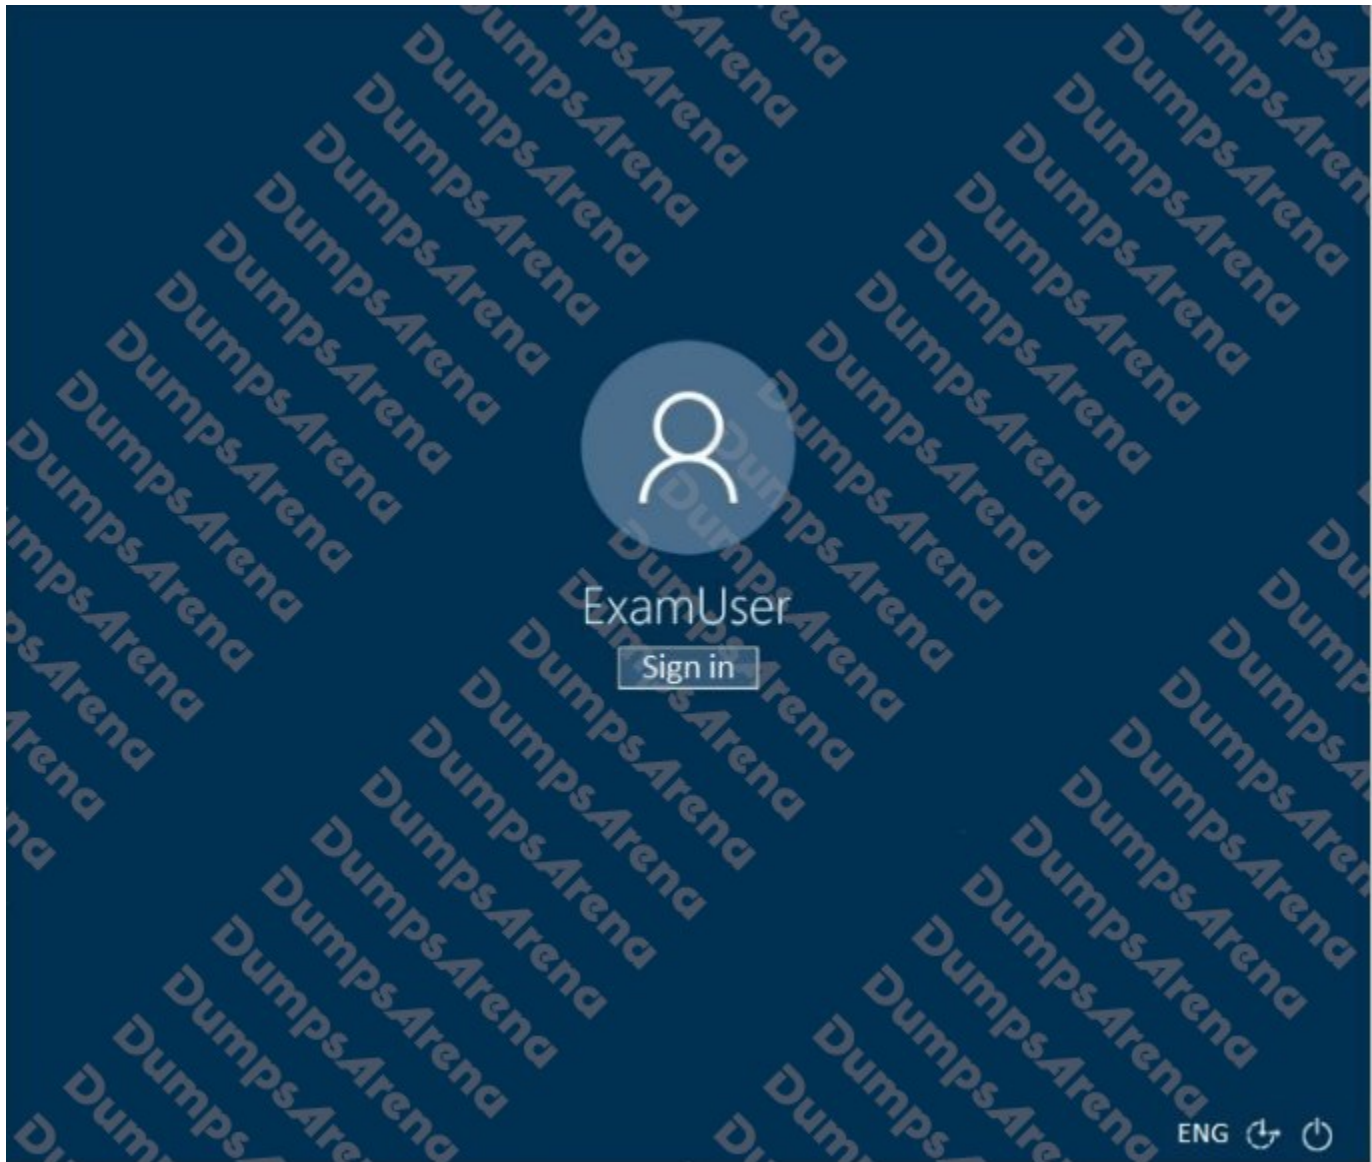

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@LODSe382148.onmicrosoft.com Microsoft 365 Password: b#nqvZG*0w*4

The following information is for technical support purposes only:

Lab instance: 10658557

You need to prevent email messages from being sent to the Internet if the messages contain content defined by the United States Health Insurance Portability and Accountability Act (HIPAA). The solution must be performed from the Exchange Online admin center.

To complete this task, sign in to the Microsoft 365 admin center.

ANSWER: See explanation below.

Explanation:

You need to configure a 'data loss prevention (DLP) policy'.

1. Go to the Exchange Admin Center, click 'compliance management' then click 'data loss prevention'.
2. Click the plus (+) sign and select 'New DLP policy from template'.
3. Give the policy a name such as HIPAA-policy.

4. In the 'Choose a template' section, scroll down and select 'U.S. Health Insurance Act (HIPAA)'
5. Ensure that 'Enabled' is selected for the policy.
6. Select the 'Enforce' option in the 'Choose a mode for the requirements in this DLP policy' section.
7. Click 'Save' to create the policy.
8. Select the new policy and click the edit icon (pencil icon).
9. Select 'rules' and untick the 'Allow override' option.
10. Click Save to save the changes.

QUESTION NO: 4 - (HOTSPOT)**HOTSPOT**

You need to implement a solution to meet the technical requirements for the SCL.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:**Answer Area**

	▼
Set-ContentFilterConfig	
Set-MailboxDatabase	
Set-OrganizationConfig	
Set-TransportServer	

	▼	3
-PoisonThreshold		
-SCLJunkThreshold		
-SCLJunkEnabled		
-SCLRejectThreshold		
-SCLQuarantineThreshold		

ANSWER:

Answer Area

	▼
Set-ContentFilterConfig	
Set-MailboxDatabase	
Set-OrganizationConfig	
Set-TransportServer	

	▼	3
-PoisonThreshold		
-SCLJunkThreshold		
-SCLJunkEnabled		
-SCLRejectThreshold		
-SCLQuarantineThreshold

QUESTION NO: 5 - (DRAG DROP)**DRAG DROP**

Your company has 5,000 Microsoft Exchange Server 2019 mailboxes.

The company is implementing a new application named HR1 that integrates with Exchange. HR1 runs on a server named HRSERVER.

You create a new mailbox named HRService for the service account of HR1.

You need to ensure that HR1 can sync contacts from all the mailboxes in the Exchange organization concurrently by using an Exchange ActiveSync connection.

How should you complete the PowerShell script? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Values

- Set-Mailbox HRService
- EASMaxConcurrency \$null
- ThrottlingPolicy HR
- Set-ThrottlingPolicyAssociation HR
- New-ThrottlingPolicy HR
- New-ResourcePolicy HR
- AnonymousMaxConcurrency \$null

Answer Area

-
-
-
-

ANSWER:

Values

- Set-Mailbox HRService
- EASMaxConcurrency \$null
- ThrottlingPolicy HR
- Set-ThrottlingPolicyAssociation HR
- New-ThrottlingPolicy HR
- New-ResourcePolicy HR
- AnonymousMaxConcurrency \$null

Answer Area

- New-ThrottlingPolicy HR
- EASMaxConcurrency \$null
- Set-ThrottlingPolicyAssociation HR
- ThrottlingPolicy HR

Manage Organizational Settings

QUESTION NO: 6

You use an IMAP-based email system.

You purchase a Microsoft 365 subscription.

In Exchange Online, you create mailboxes for all users.

You need to migrate all the email accounts of all the users to Exchange Online.

Which three components should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. an accepted domain
- B. a remote domain
- C. a migration endpoint
- D. an inbound connector
- E. a CSV migration file
- F. a migration batch

ANSWER: A C E**QUESTION NO: 7**

You need to resolve the email delivery delay issue.

What should you do?

- A. From the Security & Compliance admin center, modify the safe attachments policy
- B. From the Security & Compliance admin center, create a supervision policy.
- C. From the Exchange admin center in Exchange Online, modify the antimalware policy.
- D. From the Exchange admin center in Exchange Online, modify the spam filter policy.

ANSWER: A

Explanation:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/dynamic-delivery-and-previewing>

QUESTION NO: 8

Your network contains an Active Directory domain named fabrikam.com.

You have a Microsoft Exchange Server 2019 organization that contains two Mailbox servers in a database availability group (DAG).

You plan to implement a hybrid deployment by using the Exchange Modern Hybrid connection option.

Which three configurations will be transferred automatically from the on-premises organization to Exchange Online? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. the device access rules
- B. the address lists
- C. the address book policies (ABPs)
- D. the Messaging Records Management (MRM) settings
- E. the mail flow rules

ANSWER: A B E

Explanation:

QUESTION NO: 9 - (SIMULATION)

SIMULATION

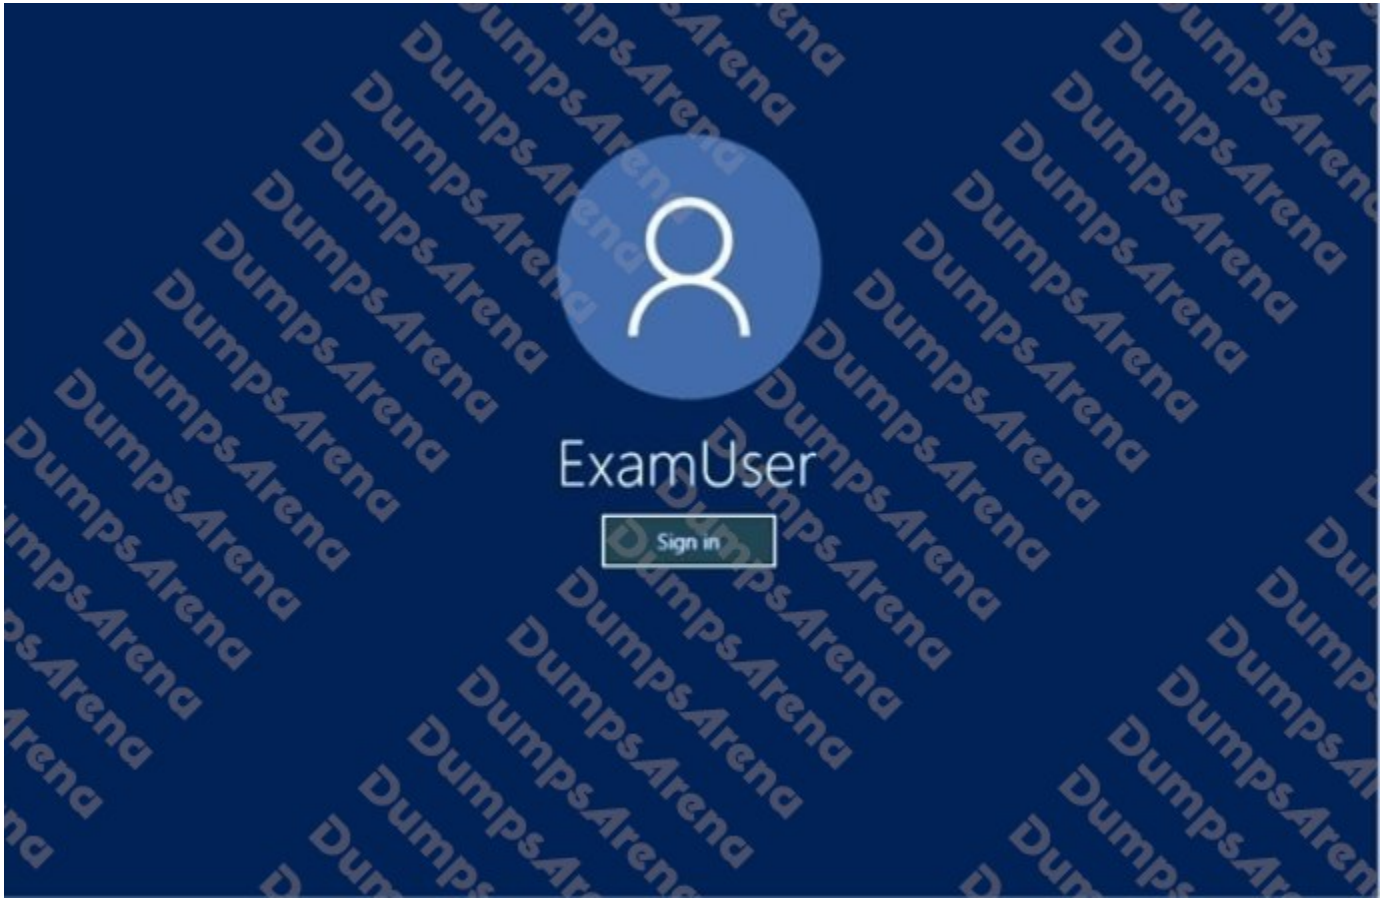

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. Username and password

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@LODSe392916.onmicrosoft.com Microsoft 365 Password: sc43@EMt^g%g

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only: Lab Instance: 11024416

You need to create a public folder named Folder1 to meet the following requirements:

- Any users in your organization must be able to send email to Folder1.
- A user named Lee Gu must have Full Control permissions on Folder1.

To complete this task, sign in to the Microsoft 365 admin center.

ANSWER: See explanation below

Explanation:

You need to create a public folder, mail enable it and configure the permissions.

1. Go to the Exchange Admin Center.

2. Click Public folders.
3. Select Public Folder Databases. If a database exists, skip to step 6. If there is no public folder database, you'll need to create one.
4. Click the plus (+) sign to add a new public folder database.
5. Give the new public folder database a name and click Save.
6. Select Public Folders.
7. Click the plus (+) sign to add a new public folder.
8. Name the public folder 'Folder1' and click Save.
9. Select the public folder. Under 'Mail settings – Disabled', select the 'Enable' link.
10. Click Yes to confirm.
11. Under 'Folder Permissions', select the 'Manage' link.
12. Click the plus (+) sign to add a user.
13. Click the Browse button to find and select Lee Gu.
14. In the Permission Level drop-down list, select 'Owner'.
15. Click Save to add the user.
16. Click Save again to save the changes.

QUESTION NO: 10 - (HOTSPOT)**HOTSPOT**

You have a Microsoft Exchange Server 2019 hybrid deployment.

You have the on-premises mailboxes shown in the following table.

Name	Forwarding address
User1	User6
User2	None
User3	None
User4	None
User5	None
User6	None

You add the mailbox permissions shown in the following table.

Mailbox	Permission
User2	Send As for User4
User4	Full Access for User3
User6	Send on Behalf for User5

You plan to migrate the mailboxes to Exchange Online by using remote mailbox move requests. The mailboxes will be migrated according to the schedule shown in the following table.

Week	Mailbox
1	User1, User2, User3, User6
2	User4, User5

Mailboxes migrated the same week will have their mailbox move requests included in the same batch and will be cut over simultaneously.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statements	Yes	No
The mail forwarding settings of the User1 mailbox will be preserved automatically after the migration.	<input type="radio"/>	<input type="radio"/>
The permissions granted to the User4 mailbox for the User2 mailbox will be preserved automatically after the migration.	<input type="radio"/>	<input type="radio"/>
The permissions granted to the User3 mailbox for the User4 mailbox will be preserved automatically after the migration.	<input type="radio"/>	<input type="radio"/>

ANSWER:

Statements	Yes	No
The mail forwarding settings of the User1 mailbox will be preserved automatically after the migration.	<input type="radio"/>	<input checked="" type="radio"/>
The permissions granted to the User4 mailbox for the User2 mailbox will be preserved automatically after the migration.	<input checked="" type="radio"/>	<input type="radio"/>
The permissions granted to the User3 mailbox for the User4 mailbox will be preserved automatically after the migration.	<input checked="" type="radio"/>	<input type="radio"/>
