Topic	No. of Questions
Topic 1, Case Study 1	6
Topic 2, Case Study 2	6
Topic 3, Case Study 3	2
Topic 4, Case Study 4	2
Topic 5, Mixed Questions	141
<b>Total</b>	<b>157</b>

**QUESTION NO: 1 - (SIMULATION)**

## SIMULATION

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

You may now click next to proceed to the lab.

## Instructions

## Username and Password

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

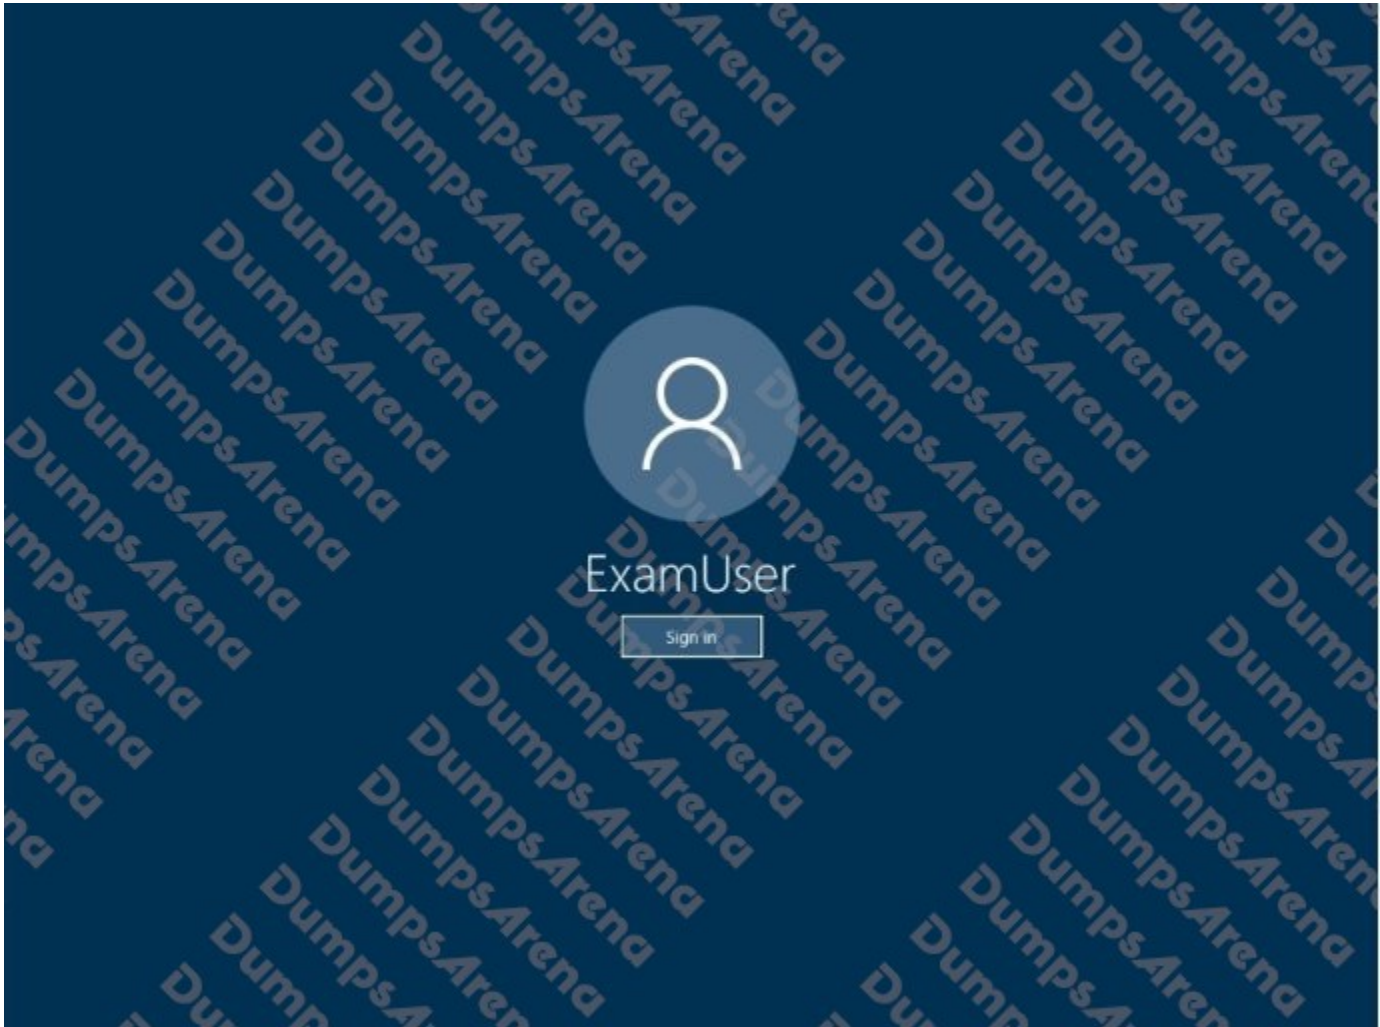

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@LODSe608500.onmicrosoft.com Microsoft 365 Password: 0=M5w\*%rYxfj

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only:

Lab Instance: 11134591

You need to prevent the Microsoft One Drive sync client from syncing MP4 files.

To complete this task, sign in to Microsoft 365 admin portal.

**ANSWER: See explanation below**

**Explanation:**

1. Open the OneDrive admin center, and click Sync in the left pane.
2. Select the Block syncing of specific file types check box.
3. Type the file name extensions you want to block, for example: exe or mp3.

Important

Do not include the periods with the extensions, or any other punctuation, spaces, or special characters.

4. Click Save on the Sync page.

**QUESTION NO: 2**

Your company has a Microsoft 365 subscription.

You discover that some users are sharing departmental videos on Microsoft Stream to all the users in the company.

You need to ensure that only the users in the human resources (HR) department can share videos on Stream.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Add the group as an unrestricted user.
- B. From the Microsoft Stream Admin settings, turn on Restrict video uploads.
- C. Create a security group that contains the HR department users.
- D. From the Microsoft Stream Admin settings, turn on Restrict companywide channel creation.
- E. From the Microsoft Stream Admin settings, turn on Require company policy acceptance.
- F. Create a Microsoft SharePoint group that contains the HR department users.

**ANSWER: A B D****Explanation:**

You need to ensure that the Operations group can receive email from the Internet.

To complete this task, sign in to Microsoft 365 admin portal.

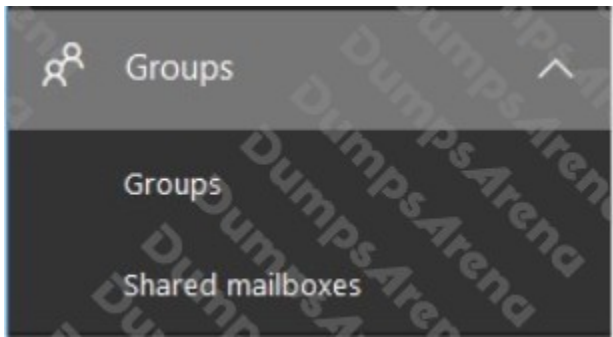

**ANSWER: See explanation below.**

**Explanation:**

1. Login to Office 365 portal.
2. Click Admin tile, then go to Office 365 admin center.

3. Select Groups, then click Groups in the left navigation pane.

4. In the admin center groups list, select the name of the group you want to change, and then on the Settings tab, select Allow external senders to email this group.
5. Select Save.

QUESTION NO: 5 - (DRAG DROP)

## DRAG DROP

You need to meet the technical requirements for setting the storage limit.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

### Select and Place:

Actions	Answer Area
From the SharePoint admin center, select <b>Settings</b>	
From site collections, configure the storage quota	
Set Admin Center Experience to <b>Use Simple</b>	⏪ ⏩
From site collections, configure the server resource quota	⏪ ⏩
Set Site Collection Storage Management to <b>Manual</b>	

**ANSWER:**

Actions	Answer Area
	From the SharePoint admin center, select <b>Settings</b>
	Set Site Collection Storage Management to <b>Manual</b>
Set Admin Center Experience to <b>Use Simple</b>	⏪ ⏩
From site collections, configure the server resource quota	⏪ ⏩
	From site collections, configure the storage quota

**Explanation:**

Configure and Manage SharePoint Online

**QUESTION NO: 6**

You have a Microsoft 365 subscription that uses Microsoft Teams.

A user named User1 is configured for Teams Island mode.

User1 reports that he does not receive any notifications for chats or calls from the Teams client.

You verify that all notifications from Microsoft Skype for Business are available.

You need to resolve the issue for User1.

What should you do?

- A. Edit the assigned policies of User1.
- B. Turn off Focus assist mode.
- C. Modify the global messaging policy.
- D. Create a new configuration profile.

**ANSWER: C****Explanation:**

<https://commsverse.blog/2018/08/02/microsoft-teams-policies-islands-and-interoperability/>

**QUESTION NO: 7**

You have a Microsoft 365 subscription.

You create and run a Content Search query.

The query executes successfully, but when you attempt to preview the results, you receive the following message: "To preview search results, please ask your Compliance Admin to grant you

Preview permission."

You need to preview the search results.

To which role group should your user account be assigned?

- A. Compliance Administrator
- B. Reviewer

C. Organization Management

D. eDiscovery Manager

**ANSWER: D**

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/microsoft-365/compliance/content-search?view=o365-worldwide>

### QUESTION NO: 8 - (HOTSPOT)

HOTSPOT

You have a Microsoft 365 subscription.

The company plans to implement Microsoft teams.

You need to ensure that users can add only specific external apps to Teams.

How should you configure each setting? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Hot Area:**

#### Answer Area

Allow external apps in Microsoft Teams:

On	
Off	

Allow sideloading of external apps:

On	
Off	

Enable new external apps by default:

On	
Off	

**ANSWER:**

**Answer Area**

Allow external apps in Microsoft Teams:

  
 On  
 Off

Allow sideloading of external apps:

  
 On  
 Off

Enable new external apps by default:

  
 On  
 Off**Explanation:**References: <https://docs.microsoft.com/en-us/microsoftteams/admin-settings>**QUESTION NO: 9 - (DRAG DROP)****DRAG DROP**

Your company creates a custom Microsoft SharePoint list named List1. List1 is exposed by using a web part named WebPart1 in a site named Company Portal. All users at the company have read access to Company Portal.

You need to configure SharePoint Online to meet the following requirements:

- Managers must see List 1 when they open Company Portal
- All other users must not see List1 from Company Portal but must be able to navigate to List1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Select and Place:**

**Actions**

**Answer Area**

Configure audience targeting for List1.

Create a user profile property and set the property for the managers.

Configure audience targeting for WebPart1.

Create an audience that uses a rule.

Assign the managers the Contributors role for Company Portal.

**ANSWER:**

**Actions****Answer Area**

Configure audience targeting for List1.

Create a user profile property and set the property for the managers.

Create a user profile property and set the property for the managers.

Create an audience that uses a rule.

Configure audience targeting for WebPart1.

Configure audience targeting for WebPart1.

Create an audience that uses a rule.

Assign the managers the Contributors role for Company Portal.

**QUESTION NO: 10**

You have a Microsoft 365 tenant.

You need to allow a Microsoft SharePoint Online list to perform CRUD operations on an on-premises data source. The solution must avoid opening firewall ports.

Which two components should you include in the solution? Each correct answer presents part of the solution?

NOTE: Each correct selection is worth one point.

- A. an external content type
- B. an ODBC connector
- C. a document set
- D. a site content type
- E. an on-premises data gateway

**ANSWER: A E**
