QUESTION NO: 1

In Huawei desktop cloud, what are the shutdown technologies for GPU hardware virtualization desktop solutions?

- A. Hardware virtual GPU
- B. High-density concurrency
- C. Low latency display
- D. Virtual desktop exclusive GPU hardware

ANSWER: A B C D**QUESTION NO: 2**

In the Huawei desktop cloud solution, SVN includes vLB and vAG functions.

- A. Yes
- B. Wrong

ANSWER: A**QUESTION NO: 3**

For computing virtualization, which of the following descriptions is correct (multiple choice)

- A. Computing virtualization can realize the reuse of computing resources
- B. Virtual machines can run operating systems and applications like physical machines
- C. With virtualization, physical machines are no longer needed
- D. With virtualization technology, one physical machine can run multiple virtual machines at the same time

ANSWER: A B D

QUESTION NO: 4

What types of Huawei desktop cloud user licenses are included? (Multiple choice)

- A. Number of users
- B. Number of concurrent users
- C. Feature number
- D. Use time

ANSWER: A B**QUESTION NO: 5**

When a desktop cloud peripheral fails, which of the following operations is not recommended?

- A. Reinstall HDA
- B. Switch redirection method
- C. Replace the driver
- D. Retry

ANSWER: A**QUESTION NO: 6**

In the Huawei desktop cloud, the following are wrong about the characteristics of complete replication of virtual machines:

- A. The virtual machines issued from the same complete copy template are exactly the same
- B. The user can change and save the data on the virtual machine
- C. Does not support shutdown restore and one-key restore functions
- D. The administrator needs to perform maintenance (upgrade software, update software virus database) operations on each virtual machine separately

ANSWER: A

QUESTION NO: 7

When using Huawei Desktop Cloud, you can enter the cloud server address in the IE browser and log in to the virtual desktop for use.

This way is ()

Login method

- A. Soft terminal
- B. Thin terminal
- C. Fat terminal
- D. Hard terminal

ANSWER: A**QUESTION NO: 8**

Which of the following comparisons between domains and OUs is incorrect?

- A. Both OU and domain belong to the structure of Active Directory
- B. The user can log in to the domain or the OU
- C. OU and domain are management units of users and computers
- D. Both OU and domain can set Group Policy on it

ANSWER: B**QUESTION NO: 9**

The ManageOne ServiceCenter application process includes:

1. After receiving the pending application form, the VDC administrator approves the user's service application
 2. VDC user browses the server catalog, selects the service and submits the application
 3. The system calls the resource pool calculation, storage, and network API for resource distribution
 4. The system executes service application and automatically generates service application form
 5. Notify users of service application results The correct order should be:
- A. 2-1-3-4-5

- B. 2-4-3-1-5
- C. 2-4-1-3-5
- D. 2-5-1-4-3

ANSWER: C

QUESTION NO: 10

Which of the following statements about virtual machine provisioning in Huawei desktop cloud is correct? (multiple choice)

- A. The two modes of complete copying and fast packaging are completely the same for end users.
- B. The full copy and quick package template can be modified up to 3 times
- C. Linked clone type virtual machine is suitable for occasions where users do not need too much personalized data, such as meeting rooms
- D. In single-user mode, the virtual machine assigned to user A can be deallocated and re-allocated to user B

ANSWER: A C

QUESTION NO: 11

In the FusionAccess management interface, it is correct to select the "service type" and "type" of the application virtualized APS virtual machine template

of

Options are

- A. Business type selection VDE template type selection Desktop full copy template
- B. Business type selection SBC template type selection Desktop full copy template
- C. Business type selection VDI template type selection Desktop link clone template
- D. Business type selection APS template type selection Desktop link clone template

ANSWER: B

QUESTION NO: 12

What are the necessary network planes in Huawei desktop cloud? (Multiple choice)

- A. Business plane
- B. Management plane
- C. Storage plane
- D. HDP plane

ANSWER: A B C

QUESTION NO: 13

OpenStack's northbound API is a SOAP type interface

- A. Correct
- B. Error

ANSWER: B

QUESTION NO: 14

In Huawei virtualization, what is the correct statement about virtual machine live migration (multiple choice)

- A. Ordinary users are not aware of the process of virtual machine hot migration
- B. Only virtual machines running on virtualized storage can be live migrated
- C. Virtual machine hot migration uses memory alternative migration technology
- D. Virtual machine hot migration uses memory compression technology to improve migration efficiency

ANSWER: A C D

QUESTION NO: 15

In FusionAccess, what regulations need to be followed when deploying infrastructure components? (Multiple choice)

- A. Set the virtual machine disk type to normal
- B. WI and vLB cannot be deployed on the same virtual machine

- C. The network card type of vAG and vLB virtual machines needs to be set to HW_V_NET
- D. vAG and vLB must be deployed on the same virtual machine

ANSWER: A B C
