QUESTION NO: 1

What two tasks can a user with the Application Developer role perform? (Choose two.)

- A. Create an Application.
- B. Subscribe to a Plan
- C. Deploy to a Gateway.
- D. Create an API.

ANSWER: A B

QUESTION NO: 2

Which is NOT a key advantage of using Oracle Integration Cloud (OIC)? (Choose the best answer.)

- A. Auto Association of Oracle SaaS Applications
- B. prebuilt integrations
- C. recommendations
- D. choice of IDE for development
- E. Public/Private Cloud Portability

ANSWER: D

QUESTION NO: 3

Which two are execution models supported by gateway node in API Platform Cloud Service? (Choose two.)

- A. Development
- B. Retired
- C. State
- D. Production
- E. Test

ANSWER: A D

QUESTION NO: 4

Which Process type should you choose to model non-sequential process type in Oracle Integration Cloud (OIC)? (Choose the best answer.)

- A. Unstructured Process
- B. Structured Process
- C. Dynamic process
- D. Adaptive Case Management process

ANSWER: C

QUESTION NO: 5

Which two statements correctly define the use cases for Business Process Execution Language (BPEL) vs. Business Process Modeling Notation (BPMN) vs. Enterprise Service Bus (ESB)?

(Choose two.)

- A. BPEL is inherently better than BPMN in managing orchestrations that involve people, because BPEL can also interact with systems.
- B. BPEL and ESB are both good technologies for doing heavy transformations of data before sending the data to a back-end system or database.
- C. All are part of a typical/traditional on-premise enterprise integration strategy and can also be an important part of a hybrid on-premises/Cloud architecture.
- D. An ESB is used primarily for stateless messages and service mediation. The ESB construct is being replaced by API's and API Gateways in modern Cloud architectures.
- E. Decision Model and Notation (DMN) replaces BPMN in modern Cloud Architectures.

ANSWER: B D

QUESTION NO: 6

Oracle SOA Cloud Service (SOA CS) includes a number of built-in adapters to include all of the technology adapters delivered with SOA Suite.

When using one of these technology adapters in a composite application deployed in SOA CS, which two are valid approaches for facilitating connectivity to on-premises applications and systems? (Choose two.)

- A. WLST script
- B. PL/SQL procedure
- C. SOA on-premises connectivity agent
- D. VPN service
- E. SSH tunnel

ANSWER: D E

QUESTION NO: 7

When a connection is in edit mode and the browser crashes, the connection becomes locked, which then prevents it from being edited.

Which two users can unlock the connection? (Choose two.)

- A. the same user who has edited the connection
- B. a user with the Designer Role
- C. any user
- D. a user with the Administrator Role

ANSWER: A D

QUESTION NO: 8

Which built-in API platform policy lets you manipulate the request context? (Choose the best answer.)

- A. Key Validation Policy
- B. Application Rate Limiting Policy
- C. Groovy Script Policy
- D. Redaction Policy

ANSWER: C

QUESTION NO: 9

One of your downstream applications is becoming overwhelmed with too many individual synchronous invocations from your newly-implemented OIC orchestration-style integration. It has been recommended that you redesign the integration to take advantage of the batch processing capabilities of the application. Which OIC approach is appropriate to implement this OIC design best practice? (Choose the best answer.)

- A. Use the Append operation of the Stage File action.
- B. Define an Ad-Hoc mapping within a while loop action.
- C. Disable tracing and message tracking for each invocation.
- D. Create a custom batch call with JavaScript, register the library and invoke a Function call.

ANSWER: D

QUESTION NO: 10

You are developing orchestration-style integrations in the OIC Designer Portal and have discovered that the Outline View is not available in your OIC instance environment.

What is the name of the feature flag you will need to request to be enabled by raising a Service Request from My Oracle Support? (Choose the best answer.)

- A. oic.console.integration.outline
- B. oic.ics.console.integration.layout
- C. oic.console.integration.outlineview
- D. oic.console.integration.pseudoview

ANSWER: B
