QUESTION NO: 1

Which of the following deployed at an enterprise level will MOST effectively block malicious tracking of user Internet browsing?

- A. Web application firewall (WAF)
- B. Website URL blacklisting
- C. Domain name system (DNS) sinkhole
- D. Desktop antivirus software

ANSWER: A**QUESTION NO: 2**

Which of the following describes a user's "right to be forgotten"?

- A. The data is being used to comply with legal obligations or the public interest.
- B. The data is no longer required for the purpose originally collected.
- C. The individual objects despite legitimate grounds for processing.
- D. The individual's legal residence status has recently changed.

ANSWER: A**QUESTION NO: 3**

Of the following, who should be PRIMARILY accountable for creating an organization's privacy management strategy?

- A. Chief data officer (CDO)
- B. Privacy steering committee
- C. Information security steering committee
- D. Chief privacy officer (CPO)

ANSWER: D**Explanation:**

:

Some organizations, typically those that manage large amounts of personal information related to employees, customers, or constituents, will employ a chief privacy officer (CPO).

Some organizations have a CPO because applicable regulations such as the Gramm-

Leach-Bliley Act (GLBA) require it. Other regulations such as the Health Information

Portability and Accountability Act (HIPAA), the Fair Credit Reporting Act (FCRA), and the GLBA place a slate of responsibilities upon an organization that compels them to hire an executive responsible for overseeing compliance.

QUESTION NO: 4

When configuring information systems for the communication and transport of personal data, an organization should:

- A. adopt the default vendor specifications.
- B. review configuration settings for compliance.
- C. implement the least restrictive mode.
- D. enable essential capabilities only.
