- C. The application layeris accessed in HTTPS
- D. Data encryption is carried out by means of MD5 encryption

ANSWER: A B C**QUESTION NO: 6**

Whatis commonly referred to as RF technology ()?

- A. RF Technology
- B. Wired technology
- C. GPS technology
- D. Beidou positioning technology

ANSWER: A

QUESTION NO: 7

Does eLTE-IoT enable BLE connectivity on the license-free spectrum via () technology?

- A. Packet quick pass
- B. Power spectral density increase
- C. Frequency hopping technique .
- D. PSM

ANSWER: C**QUESTION NO: 8**

The southbound device sends an AT command to SoftRadio through the serial port, and the result is that SoftRadio does not have any information prompt, possible reasons are ()?

(Multiple choice).

- A. SoftRadio received an unrecognized BLE AT command
- B. There is a problem with the connection of the southbound device to the PC, SoftRadio does not receive the data .
- C. The AT command sent does not end with /r/n
- D. All of the above are possible

ANSWER: B C**QUESTION NO: 9**

eLTE-IoT improves transmission efficiency and system capacity through () technology?

- A. Packet Quick Pass
- B. HARQ+ARQ
- C. Frequency hopping technology
- D. PSM

ANSWER: A

QUESTION NO: 10

Among the following options, the main features of Huawei's lighting IoT solution are ()? (Multiple choice)

- A.** On-demand lighting to reduce the energy consumption of street lamps
- B.** Efficient and low-cost connection of massive street lights
- C.** Reduced installation and maintenance costs
- D.** Guarantee the reliable operation of the system

ANSWER: A B C D
