QUESTION NO: 1 - (DRAG DROP)

In the Answer Area, drag each use case on the left to the appropriate locking strategy on the right.

	Use Case	Locking Strategy
Subcase data entry is completely independent of other users		Do not lock parent
Data entry may only be performed on one subcase at a time		Default locking
A property value restricts updates to a single case at a time		Customize lock string
Agent updates to subcases are never restricted		Optimistic locking

ANSWER:

QUESTION NO: 2

a standard agent has auto queue management enabled, runs periodically, and is set to retry once.
