QUESTION NO: 1

You are preparing to create a new major version of an application ruleset in which there are multiple minor and patch versions.

How do you create the new ruleset version?

- A.** Use the Ruleset Maintenance wizard to skim the relevant ruleset versions to copy the highest version of existing rules to the new ruleset version.
- B.** Use the Ruleset Maintenance wizard to merge the existing rules in the relevant ruleset versions to the new version.
- C.** Use the Application Structure landing page to lock and roll the existing ruleset versions to the new version.
- D.** Create a new application ruleset using the appropriate version number, then copy the highest version of existing rules into the new ruleset version.

ANSWER: A**QUESTION NO: 2 - (DRAG DROP)**

In the Answer Area, drag each log name on the left to its intended purpose on the right.

<u>Log Name</u>	<u>Answer Area</u>	<u>Log Name</u>	<u>Intended Purpose</u>
Alert			Contains warnings, errors, and information messages about internal operations
Pega			Contains messages about URL tampering attempts
AlertSecurity			Contains performance-related messages

ANSWER:

Log Name

Alert
Pega
AlertSecurity

Answer Area

Log Name

Pega
AlertSecurity
Alert

Intended Purpose

Contains warnings, errors, and information messages about internal operations

Contains messages about URL tampering attempts

Contains performance-related messages

Explanation:

Log Name

Alert
Pega
AlertSecurity

Answer Area

Log Name

Pega
AlertSecurity
Alert

Intended Purpose

Contains warnings, errors, and information messages about internal operations

Contains messages about URL tampering attempts

Contains performance-related messages

QUESTION NO: 3

In your purchasing application, you use a decision table with vendor discount codes. You want to delegate the decision table.

In which ruleset do you save the decision table to allow delegation?

- A. Organization
- B. Integration
- C. Production
- D. Application

ANSWER: C

QUESTION NO: 4 - (SIMULATION)

You are creating a report that lists all open Personal Injury cases with related Auto Claim case information. Personal Injury and Auto Claim cases belong to the same class group.

The report includes three columns:

- ◆ Case ID for the Personal Injury case
- ◆ Case ID for the parent Auto Claim case
- ◆ Claim adjuster for the Auto Claim case

Personal Injury case data includes the Auto Claim case ID.

What join type do you use to configure the report?

ANSWER: seetheanswerinexplanation.

Explanation:

See it below:

QUESTION NO: 5

Which three statements about the guardrail score are true? (Choose Three)

- A. The Application Guardrails landing page counts the number of rules with severe or moderate guardrail warnings.
- B. Guardrail scores do not include Pega Platform core rules.
- C. The Application Guardrails landing page counts the number of rules with no warnings or caution-level guardrail warnings.
- D. A weighted compliance score above 90 signifies that an application is ready for general distribution.
- E. Rules with unjustified warnings are not counted in the compliance score.

ANSWER: A C E

QUESTION NO: 6

You have a requirement to associate users in different units to the same work queue.

How do you implement this requirement?

- A. Associate the users to a common work group. Then associate a work queue to the work group.
- B. Associate the users to a common work group. Then associate the work group to the appropriate units.
- C. Associate the users to a common unit. Then associate a work queue to the common unit.
- D. Associate the users to a common work queue. Then associate the work queue to the appropriate units.

ANSWER: A

QUESTION NO: 7

Which two statements about guardrails are true? (Choose Two)

- A. Each rule may have multiple guardrail warnings.
- B. Pega Platform performs guardrail examination when a rule is checked out.
- C. Pega Platform performs guardrail examination when a rule is saved.
- D. A developer receives a guardrail warning for rules checked out by other developers.

ANSWER: A C

QUESTION NO: 8

Which two statements are valid regarding Pega Web Mashup? (Choose Two)

- A. Pega Platform limits mashup users to working on existing cases.
- B. Mashup requests are checked for the corresponding mashup channel ID parameter.
- C. A mashup can allow access to Dev Studio for full system configuration.
- D. A user can view their worklist in an external portal and select items on which to take action.

ANSWER: B D

QUESTION NO: 9

There are five instances of a rule in the rules cache. The only differences between these are the circumstance settings and ruleset version. The operator's access group has access to all ruleset versions.

On 1 June 2020, which instance is chosen by rule resolution if .Country = Algeria?

Ruleset Version	Circumstance
SelfService:01-01-01	None
SelfService:01-01-01	.Country = Algeria
SelfService:01-01-02	Start Date = 1 January 2020 End Date = 31 December 2020
SelfService:01-01-03	None, <i>Base Rule</i> checked
SelfService:01-01-05	None

- A. SelfService:01-01-03 (Circumstance: None, Base Rule checked)
- B. SelfService:01-01-01 (Circumstance: .Country=Algeria)
- C. SelfService:01-01-02 (Circumstance: Start Date = 1 January 2020; End Date = 31 December 2020)
- D. SelfService:01-01-01 (No Circumstance)
- E. SelfService:01-01-05 (No Circumstance)

ANSWER: E

QUESTION NO: 10

Which two configurations do you implement when using a Pega Web Mashup? (Choose Two)

- A. Leverage the standard authentication service ICAAuthentication and update the authentication activities.
- B. Add an access group for the application rules that need to be accessed from the external system.
- C. Configure a node-level data page to hold security access information about the external system.
- D. Configure the application permissions by specifying a list of trusted domains in the application rule.

ANSWER: A B
