ANSWER: A C

QUESTION NO: 8

Which component allows you to publish to Manager AND a Learning Management System AND web servers?

- A. Web Editor
- B. Producer
- C. Desktop Assistant
- D. Instant Producer

ANSWER: B

QUESTION NO: 9

Your customer wants to store all SAP Enable Now documentation within SAP Solution Manager. What do you tell the customer?

- A. The integration is possible with any version of SAP Solution Manager on both client side and server side.
- B. The integration is done from within Manager via scheduled synchronization.
- C. The integration is possible between Producer and SAP Solution Manager 7.2 but will only provide deep links to the documentations.

ANSWER: C

QUESTION NO: 10

A customer wants to use Desktop Assistant for a non-SAP target application that is not listed in the Product Availability Matrix (PAM) and asks you whether this is possible. What do you reply?

- A. Desktop Assistant can be rolled out for an application, but will support the application context only.
- B. Because the application is not listed in the PAM, Desktop Assistant cannot be rolled out for this application.
- C. The PAM shows the limitations for SAP applications. Non-SAP applications are supported out-of-the-box.

D. Because the application is not listed in the PAM, it is not officially supported. You must evaluate whether the application will work.

ANSWER: D
