**QUESTION NO: 1**

When creating a new Inspection form, a client requires a Work Order to be created if certain responses are recorded. Which two actions are required for this to be achieved?

- A. Choose Work Order on question action.
- B. Make the question response interactive.
- C. In Form Settings add an Action Script.
- D. In the Question Options, set the Require action flag.
- E. Create an escalation on the QRESPONSE Object.

**ANSWER: A D****Explanation:**

[According to the IBM documentation](#), you can create inspection forms that detail the questions and types of responses that you want to collect. The inspection forms that you create are then available to inspectors in the Conduct an Inspection tool. You can also add conditions to the response fields of existing questions on inspection forms to gather more information. You can determine which additional response fields appear to inspectors, depending on the answers they gave to inspection form questions.

To create a work order based on certain responses, you need to do two things:

**QUESTION NO: 2**

In the Budget Monitoring application, where are the budget amounts entered?

- A. Budget Line
- B. Budget Record
- C. Budget Rules
- D. Focal Point

**ANSWER: A****Explanation:**

the budget amounts in the Budget Monitoring application are entered at the Budget Line level. A Budget Line represents a specific account or category within a budget and allows for detailed tracking and analysis of budget data.

**QUESTION NO: 3**

In what Maximo Manage application are the specifications of an asset for calibration entered?

- A. Classifications
- B. Asset
- C. Data Sheet Template
- D. Improvements

**ANSWER: C**

**Explanation:**

In IBM Maximo Manage, the specifications of an asset for calibration are entered in the Data Sheet Template application.

#### QUESTION NO: 4

When a Service Level Agreement is applied to a WORKORDER object, what Commitment Type will be missing from the lookup?

- A. DOWNTIME
- B. DELIVERY
- C. AVAILABILITY
- D. CONTACT

**ANSWER: B**

**Explanation:**

When a Service Level Agreement (SLA) is applied to a WORKORDER object in IBM Maximo Manage v8.0 implementation, the Commitment Type that will be missing from the lookup is DELIVERY. The other possible Commitment Types in Maximo Manage are DOWNTIME, AVAILABILITY, and CONTACT.

#### QUESTION NO: 5

What are two of the filters in the Select Value of a Location or Asset in the Service Requests application?

- A. Public
- B. Service Address
- C. Service Group/Services
- D. User/Custodians
- E. Work Zones

**ANSWER: B C****Explanation:**

Two of the filters in the Select Value of a Location or Asset in the Service Requests application in IBM Maximo Manage are Service Address and Service Group/Services.

**QUESTION NO: 6**

Which Maximo Application Suite add-on enables managing certificates for assets and training requirements for personnel?

- A. Health, Safety and Environment (HSE)
- B. Asset Configuration Manager
- C. Maximo HR Manager
- D. Service Provider

**ANSWER: A****Explanation:**

The Health, Safety and Environment (HSE) add-on in the IBM Maximo Application Suite enables managing certificates for assets and training requirements for personnel. This add-on provides functionality for managing health and safety risks, including compliance with regulations, management of environmental incidents, and tracking of personnel certifications and training.

**QUESTION NO: 7**

What are the three default values used with the position of a Crew Type or Crew?

- A. Helper
- B. Supervisor
- C. Driver
- D. Leader
- E. Apprentice
- F. Technician

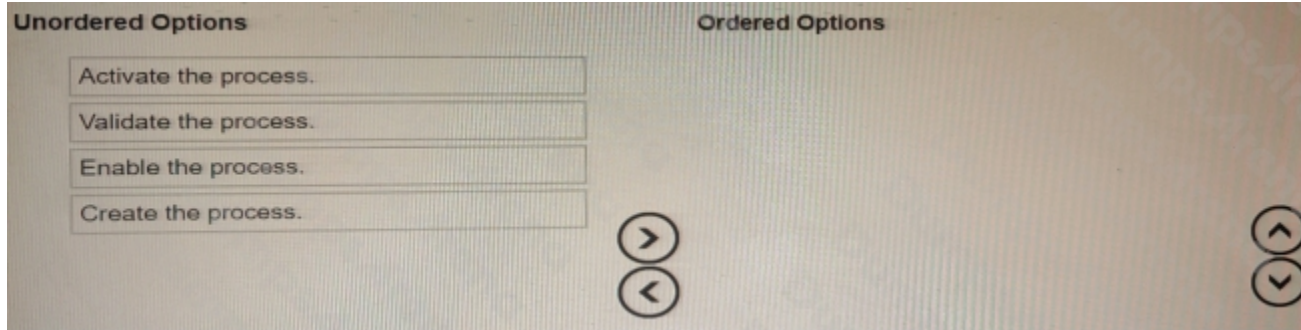

**ANSWER: A D E****Explanation:**

In IBM Maximo Manage v8.0 implementation, the three default values used with the position of a Crew Type or Crew are Helper, Leader, and Apprentice. These values represent the different roles that members of a crew can assume.

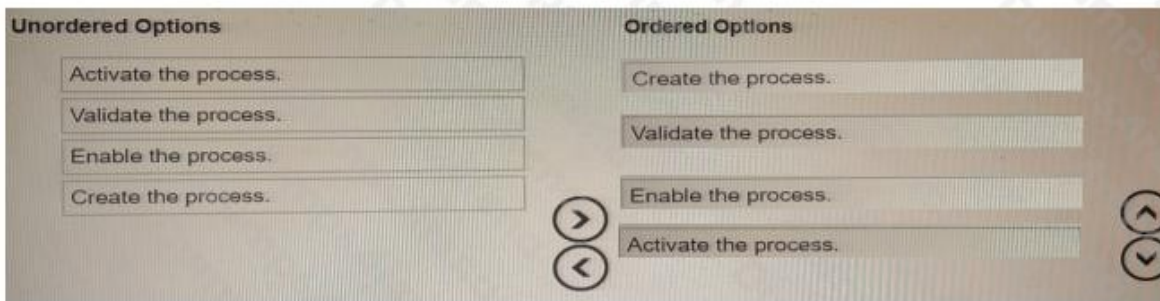

**QUESTION NO: 8 - (DRAG DROP)**

Select all that apply

What is the appropriate order of phases in order to create a workflow process?

**ANSWER:**

**Explanation:**

The appropriate order of phases in order to create a workflow process in IBM Maximo Manage is:

**QUESTION NO: 9**
